

Course Access: It's Easy and Convenient

Welcome to Your Course Access (CA) Course! As part of this program, all your course materials are available digitally by the first day of class, ensuring you have immediate access to your digital textbooks and courseware. To make sure you are fully prepared, it is important to **verify your access** through the course's Learning Management System (Canvas, Blackboard, etc.) and familiarize yourself with these digital resources. By completing these steps early, you **ensure a smooth and successful** learning experience.

Log into the Learning Management System (LMS) platform:

Confirm you have access to the course in your LMS.

Review Syllabus Requirements:

Read the course syllabus to understand how to access your digital course materials.

Verify Access to Course Materials:

Check your course dashboard for Course Access links. Confirm access through your LMS and review the FAQs.

Download the [Bookshelf](#) app to your device and download your etexts for online and 100% offline access.

Explore special study features such as **search, highlighting, and note-taking** in the digital materials. Review guides or tutorials from your instructor.

Verify Billing Information:

Ensure Course Access charges are accurate on your student account. If you opted out, purchase the required course materials separately.
