# VitalSource®

Packed with Learning Power

Deliver a complete reading, studying, and practicing experience with the Bookshelf® eReader. With millions of etexts in the most extensive catalog for higher education courses, Bookshelf delivers a seamless, flexible learning experience.

With Bookshelf, you simplify course materials access and provide:

✓ **AI Backed by Learning Science:** Improve student retention and understanding with AI-powered practice and study help.

✓ **Always on Resiliency:** Access materials anytime, anywhere—online or offline, across any device.

✓ **Full Suite of Study Tools:** Powerful features like highlighting, note-taking, and flashcards bring all learning tools together in one place.

✓ **Best-in-Class Accessibility:** As leaders of accessibility in EdTech, students receive and engage with the content they need—no special versions required.

✓ **Proactive Content & User Protection:** Protect student access while safeguarding Personally Identifiable Information (PII) with VitalSource's stringent security and defense strategies, ensuring access without compromising data privacy.

Bookshelf transforms learning by combining innovative technology, learning science, and accessibility to enhance engagement and retention. Bookshelf CoachMe delivers interactive, real-time AI-powered practice with immediate feedback directly in the etext. The new AI-powered study partner, Bookshelf+, allows students to ask questions, break down ideas, quiz themselves, and compare concepts, all within the instructor-assigned content.

These AI powered features are grounded in over a decade of published learning science research, helping students achieve a deeper understanding of their course materials.

Deliver a learning advantage to every student with Bookshelf.
